Samurai Sudoku — Hard

Name _____

Puzzle 1 · Hard · 119 numbers given

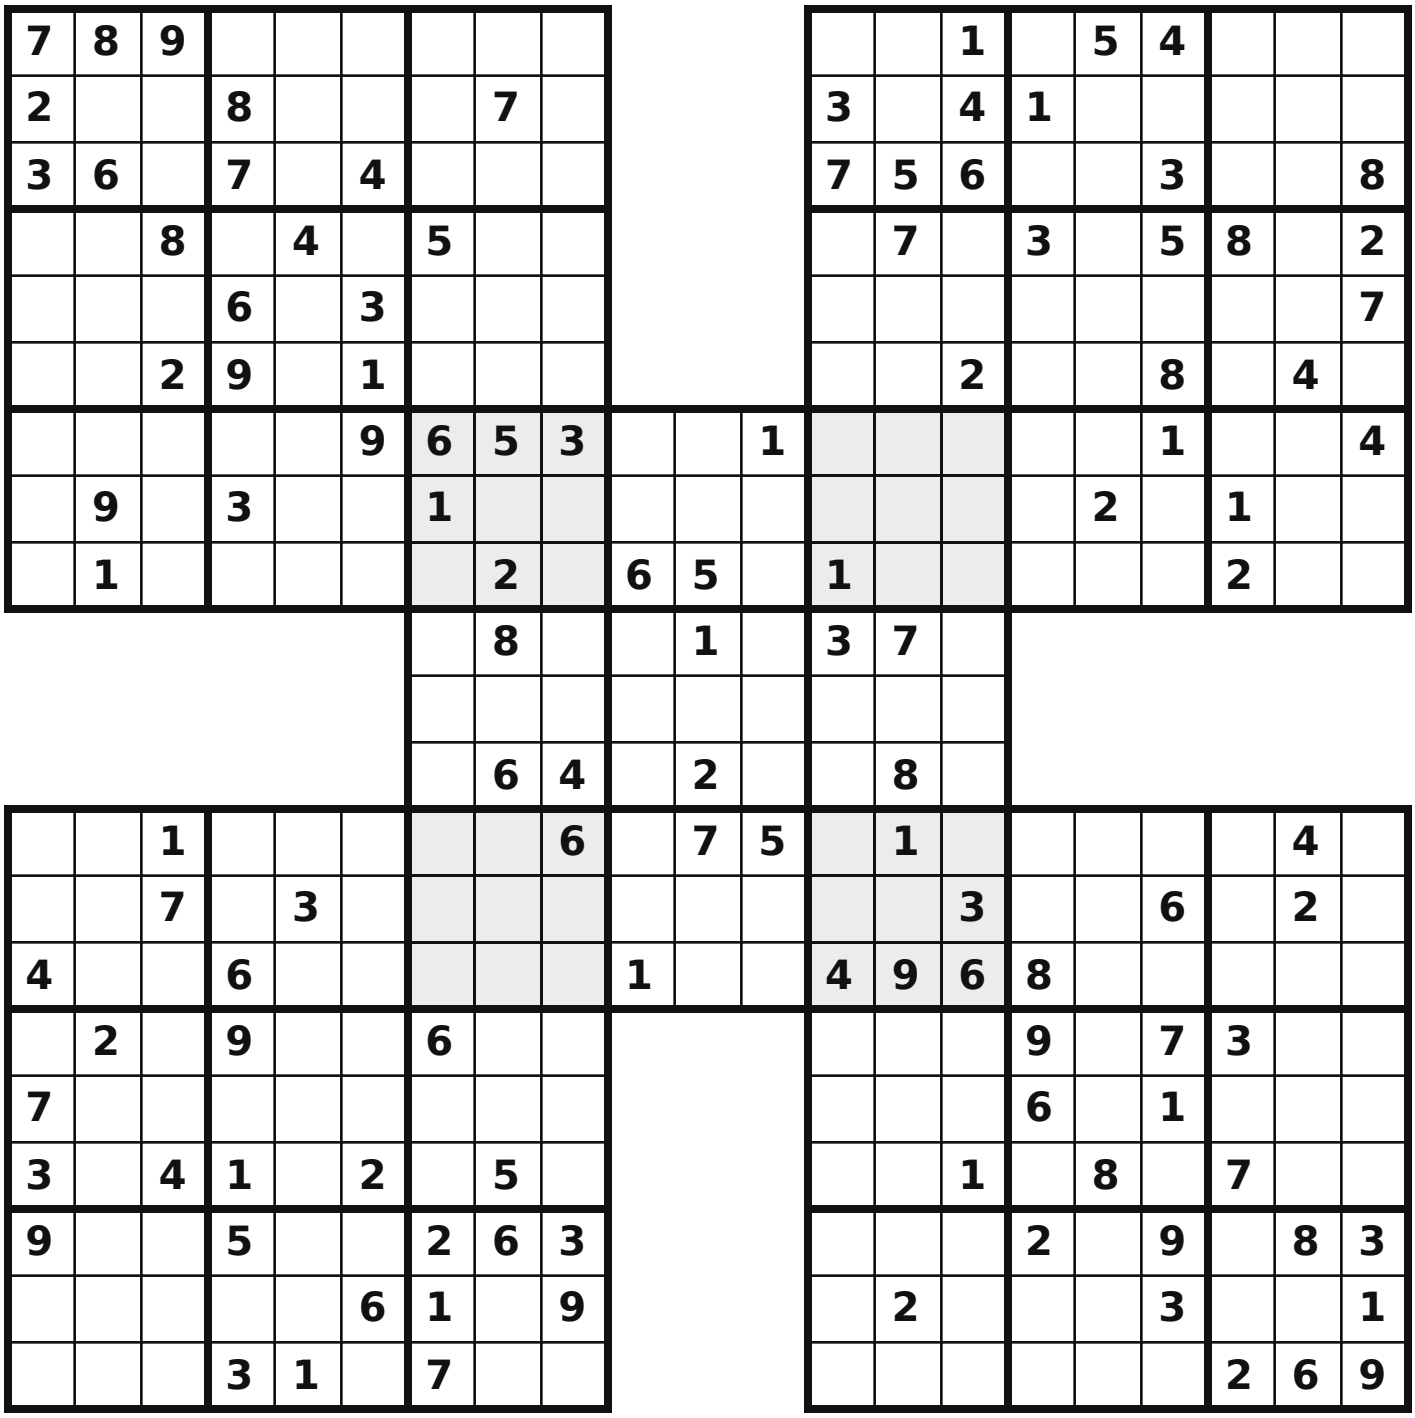

Fill each of the five 9×9 grids so that every row, column and 3×3 box has the numbers 1 to 9 once. The four shaded boxes belong to two grids at once: the center grid and one corner grid.

Samurai Sudoku — Hard

Name _____

Puzzle 2 · Hard · 120 numbers given

Fill each of the five 9×9 grids so that every row, column and 3×3 box has the numbers 1 to 9 once. The four shaded boxes belong to two grids at once: the center grid and one corner grid.

Samurai Sudoku — Hard
